

Colored Pencil Mixing Grid

Directions for layering colors:

1. Fill boxes in the column (vertical) of the Dominant Color (color on top) using 50% pressure.
2. Fill boxes in the row (horizontal) of the non-dominant color (color on the left) using 50%-70% pressure.
3. Repeat step 1 using enough pressure (usually 80%-100%) to demonstrate the most intensity.
4. Follow directions for the value scale below.

*When you are done, all of the boxes should demonstrate the use of *layering* and *intensity*!

Dominant Color on TOP----->	RED	ORANGE	YELLOW	GREEN	BLUE	VIOLET
RED						
ORANGE						
YELLOW						
GREEN						
BLUE						
VIOLET						
Value Scale *Create a Value Scale in each box for the corresponding hue.
