

Mark Jenkins Tape Sculpture Grading Scales

Categories	Innovating 4	Applying 3	Developing 2	Beginning 1	Not Using 0
1. Sculpture Size (a group of 2-3 should have a sculpture the size of one person 5'10")	4- Sculpture(s) is larger than 5'10" and may have added pieces that aide the sculpture.	3- Sculpture(s) is around 5'10". No extra pieces.	2-Sculpture(s) is less than 5'10". 5' – 5'8" of space.	1-Sculpture is less than 5' of space.	0-Incomplete
2. Craftsmanship (no open spaces, durable, at least two layers)	4- Craftsmanship of piece is durable and can be moved without losing integrity.	3- Craftsmanship of piece is durable but moves a little when being moved. May need another layer of tape.	2- Piece has one or two open spaces that need to be filled with tape.	1- There are a few open spaces that need to be filled with tape...looking unfinished.	0-Incomplete
3. Experimentation/ Originality (don't just copy what you've seen)	4- Group used new and inventive ways to create their sculpture. Piece or pose hasn't been seen before and may have added other material.	3- Group used new ways to create their sculpture. Piece or pose hasn't been seen before. May have only used tape.	2- Group only uses tape on a sculpture seen before, but is improved upon.	1- Group only uses tape on a sculpture seen before. No clear improvements can be seen.	0-Incomplete
4. Piece works with installed space (your sculpture fits into the environment you've put it in)	4- Sculpture works within installed space. It looks as though it was made for that space. No improvements can be made. (Adheres well to space)	3- Sculpture works within installed space. It looks as though it was made for that space. Small improvements can be made. (Adheres well now but may fall or be moved later)	2- Sculpture doesn't work in space unless a few modifications can be made to the sculpture or the space. (Not Adhering well now, need to find a different solution to the space)	1- Sculpture doesn't work in space. Another location should be found. (Won't adhere to space set in. Need another location and solution)	0-Incomplete
5. Effort (everyone in group helped and works together)	4- Time was used throughout the entire project and was never told by teacher to focus or stay on task. Experimentation of techniques is evident.	3- Time was used throughout most of the project and was told by teacher to focus or stay on task once or twice. Experimentation of techniques is evident but needs some development.	2- Time was used throughout most of the project and was told by teacher to focus or stay on task several times. Experimentation of techniques is evident but needs a lot of development. Student strayed from the concept of the assignment.	1- Time was used throughout most of the project and was told by teacher to focus or stay on task many times. Experimentation of techniques is not evident. Student's project doesn't resemble assignment given.	0-Incomplete
